TESTIMONIAL

«We had to test PartStore for our spare parts orders to Saudequip in December 2016. Using this new interface enabled us to improve our daily ordering process thanks to quick and effective online quotes creation, instant view on inventories at the Dakar branch, access to the SIS parts catalogue, and real-time price updates.

With PartStore™, we have tremendously improved our efficiency in our ordering process. Therefore I strongly recommend this new interface if you want to save time and effort.»
